JOB SEARCH ENGINES 34 - 35

Welcome to the second edition of The Career Guide for students and graduates in the undergraduate Bachelor of Environment and courses in the School of Design. First developed by Career Intern Phil Chen Quo, this edition has fully updated, with new linksated some of the links and added new organisations. Please assist us to keep the Guide up to date. Any errors or omissions, or if you are aware of organisations that should be listed, please email me: ghabgood@unimelb.edu.au

Melbourne Career Centre – University of Melbourne 2016
1. UNIVERSITY CLUBS AND SOCIETIES

Being an active participant in a university club can be a fantastic way to network with people in similar fields. You are able to meet people who are alumni at the university and other fellow students that are working in the industry. Being an active participant can also add to your resume and job applications. Furthermore, jobs and positions are often posted in the club’s Facebook and Twitter pages. The list below details the clubs and societies at the University of Melbourne involved in the environments and land use fields. Contact details are available at: http://umsu.unimelb.edu.au/jump-in/clubs/clubs-listing/

Melbourne University Planning Students Society (MUPSS)
The MUPSS aims to provide students interested in urban planning: a social organisation, a connection with industry and representation within the Faculty.
https://www.facebook.com/groups/302465999852658

Student Organised Network for Architecture (SONA)
The Student Organised Network for Architecture (SONA) is the official student body of the Australian Institute of Architects. We represent architecture students from across Australia, organising national, state and local events that provide opportunities for students to collaborate with each other as well as architects.
sona@architecture.com.au

Environments Student Society (ENVI)
ENVI is the student club run by Environments students. It organizes a number of events for its members including regular BBQs, an annual ball, a boat cruise and fun nights out, as well as invaluable educational support and resources such as our annual industry night.
Construction Students Association (CSA)

The Construction Students Association (CSA) is a platform for students undertaking a construction related degree to connect with one another and industry. We support the professional development of all our members by offering interaction and networking opportunities via a range of social and professional engagement events throughout the year.

Melbourne University Geomatics Society (MUGS)

a club for a variety of different students — from Engineers to Urban Planners to Earth Scientists.

We run events — both big and small — including; an annual Ball, Pool Competition and End of Year Spit Roast. MUGS also acts as a link between students, staff and the Geomatics Industry and hosts the Geomatics Industry Careers Night, held in April of every year. This provides students with direct networking opportunities while presenting a broad range of employers from Engineering to Planning to Government firms.

The Architecture and Building Association (ABA) is a student lead initiative, providing university students with a professional networking platform. It also strives to provide learning opportunities throughout the events and programs it facilitates. Whether you’re a first year student that’s simply interested in the building industry or a graduate within the university looking to improve career prospects and

http://abaunimelb.com/
create a professional network, this club offers something for everyone.

2. PROFESSIONAL ASSOCIATIONS

Joining a professional association can be very beneficial for students. Through award ceremonies, roundtable discussions or guest speaker presentations, professional organisations provide plenty of ways to simply learn about an industry. Many established, successful individuals participate in them; it keeps them sharp and refreshed on current trends, new ideas and different approaches.

Even in less formal networking opportunities, there are many things to learn from talking with the best of the best in any industry. Listen carefully to the language they use to discuss their work, and the types of things that seem important to them.

Most importantly, professional associations are composed of your future boss, hiring manager and colleagues. In the ultra-competitive job market that young professionals face today, it’s no secret that the adage, “It’s not what you know, it’s who you know” rings true.

In this day and age, we have the advantage of digital and social tools to enhance and simplify our networking efforts. During each event, it’s important that you meet at least three to five new contacts. Afterwards, connect with them on LinkedIn, including a personal note so they remember who you are. Follow them on Twitter, and don’t be afraid to talk to them about a professional topic. Not only will you stay on their radar, you will also be building your relationships, which could prove to be invaluable in your job search.

3. INTERNSHIP AND WORK PLACEMENTS

Employers look favourably upon graduates that have some experience under their belt. Furthermore, employers are looking at internships as the best platform for trialling entry-level candidates. Importantly, an internship can give you the necessary confidence and skills to start your new career.

A number of organisations and companies offer internship programs. The information below is designed to inform students of internship programs that are available.
Remember that even when organisations don’t advertise formal internship programs, they may still be open to a direct approach. When communicating with a potential employer, convey not just your interest and enthusiasm.

Department of Infrastructure and Regional Development

**Location:** Canberra

**Type:** Paid internship, 150 hours per four-week settlement with a standard work day of 7.5 hours.

**Info:** Voted into the Top Intern Programs in Australia (AAGE survey, 2015)
- be an Australian Citizen;
- be entering your final year of an undergraduate (minimum) degree or have successfully completed or will complete your degree this year;
- be available for your placement between November and February;
- be available for a minimum of 8 weeks;
Open to students in a variety of disciplines, including town planning, urban policy and civil engineering

**Contact:** For more information please contact the Graduate Recruitment Team on (02) 6274 6161 or email graduates@infrastructure.gov.au

*Tract Consultants*

Melbourne Career Centre – University of Melbourne 2016
http://tract.com.au

**Phone:** (03) 9278 4416 |

| **GRIMSHAW**  
Grimshaw Architects  
http://grimshaw-architects.com/jobs/melbourne/ |
|---|
| **Location:** Melbourne  
**Field:** Architecture  
**Info:** In addition to professional opportunities, Grimshaw offer internships to qualified university students and work experience placements for those considering a career in |
architecture throughout the year. Speculative CVs can be sent to jobs@grimshaw-architects.com

City of Melbourne

**Location:** Melbourne  
**Field:** Engineering, Planning, Urban Design

**Info:** The City of Melbourne offers work experience placements for Secondary and Tertiary students at times throughout the calendar year according to available opportunities within the areas of the Student's Interest. The placements provide students with the opportunity to gain practical work experience in a diverse range of professional streams at Council, complementing their studies and enhancing their professional skills.

Applications are conducted via Expressions of Interest on the council website. An online application form is required to be submitted in addition to a resume and answers to a series of brief questions  

**Requirements:** Have permission by your educational institution's Personal Accident Insurance and Public Liability Insurance to complete work experience.

Department of Transport, Planning and Local Infrastructure  
**Melbourne Career Centre – University of Melbourne 2016**

**Location:** Melbourne  
**Field:** Planning, Engineering, Policy

**Info:** The Department of Transport, Planning and Local Infrastructure offer a variety of employment programs such as the Youth Employment Scheme which offers employment opportunities for people aged 15 to 24 years with traineeships in the Victorian Government.

**Contact:** For more information on the programs available contact the Employment Programs Advisor on (03) 8394 6235

---

**City of Monash**

City of Monash

**Location:** Melbourne  
**Field:** Various

**Info:** The City of Monash offer work experience placements for student undertaking a course with a work experience requirement. Applications for work experience can be sent to jobs@monash.vic.gov.au. Please include a cover letter explaining what area you would like to work and the dates of your schools work experience program along with a copy of your resume.

---

**Jacobs**

**Location:** Melbourne and Geelong  
**Field:** Building, Transport, Planning, Engineering
**Info:** Internships vary by location. They offer opportunities to be involved in projects both domestically and internationally. You will get the chance to work with a mentor who will assign projects for you. Application can be submitted via the Jacobs website.

**United Nations Environment Programme**
http://www.unep.org/vacancies/default.asp?vac_level=Interns

**Location:** Various

**Field:** Various

Students from a wide range of disciplines are able to apply, and depending on qualifications, are selected for internships that relate either to the organization’s strategic activities or to administrative or technical functions. Internships afford you the opportunity to work in a multi-cultural international organization.

**Requirements**

- The applicant MUST be in his/her third or fourth year of under-graduate (BA/BSc.) or in a graduate (Masters) or post-graduate (PhD) programme, and must continue to be enrolled during the period of the internship and after.
- Willingness to intern on a **full-time** basis spending five days a week for a period of not less than THREE MONTHS and not exceeding SIX MONTHS.
- Send a letter of endorsement from his/her educational institution, attesting to the fact that he/she is currently a registered student and will continue to be enrolled for the envisaged period of the internship. A letter from any one of the following personnel is suggested:
  - Dean of Students or Dean of Faculty
  - Registrar
  - Placement Office
- Fluency in English is mandatory; knowledge of any other UN language (French or Spanish) is an advantage.
http://unhabitat.org/about-us/join-us/
http://www.unon.org/content/internship-programme#ELIGIBILITY_CRITERIA

Location: Various
Fields: Various

Internship Programme

The United Nations Office at Nairobi offers internship to students who are currently enrolled in at least the final year of a first university degree programme or in a graduate school (second university degree or higher) programme at the time of application, or if they have graduated, can commence their internship within a one-year period after graduation.

The Internship is for a minimum period of two months and a maximum of six.

The purpose of the United Nations internship programme is twofold:

(a) to provide a framework by which students from diverse academic backgrounds gain exposure to the United Nations through assignment to offices within the Secretariat in order to enhance their educational experience and gain experience in the work of the United Nations; and

(b) to provide United Nations offices with the assistance of qualified students specialized in various professional fields.

The Staff Development and Training Unit (SDTU/HRMS) manages the internship programme on behalf of the following UN Organisations:

- United Nations Human Settlements Programme (UN-HABITAT) including out-posted offices
- United Nations Environment Programme (UNEP) including out-posted offices
- United Nations Offices at Nairobi (UNON)
- United Nations Dispute Tribunal, Office of Administration of Justice (OAJ)

ELIGIBILITY CRITERIA

Due to the large number of applicants and the limited number of places available per
year, applicants are strongly advised to note the following minimum eligibility criteria for an Internship at UN-HABITAT, UNEP, and UNON administered by the SDTU. If all of the requirements are not met, your application will not be processed. Successful application does not guarantee placement.

Applicants to the United Nations internship programme must at the time of application meet one of the following requirements:

(a) Be enrolled in a graduate school programme (second university degree or equivalent, or higher);

(b) Be enrolled in the final academic year of a first university degree programme (minimum Bachelor's level or equivalent);

(c) Have graduated with a university degree (as defined in (a) above) and

(b) if selected, must commence the internship within a one-year period of graduation

APPLICATION PROCESS

All internship vacancies will be posted in the United Nations Careers Portals. To view and apply for any of the open internship vacancies, kindly log onto the United Nations Careers Portal https://careers.un.org/lbw/Home.aspx. Note that due to a large volume of applicants, only short-listed candidates will be contacted.

Important note:

You must

1. Upload with your online application, a proof of enrolment stating that you are currently enrolled in a course of study and your expected date of graduation and if you have graduated, a certified copy of your degree.

Please ensure that an official letterhead or an official seal is used for the proof of enrolment. Candidates are advised that their online applications will not be processed without proper and adequate endorsement.
The Global Compact Cities Programme
http://citiesprogramme.com/research/internships

**Location:** Melbourne

**Field:** Sustainability, International Development

**Info:** Internships are offered over 3 month period for three days a week or equivalent. The role often includes participation in an academic research project, specific to innovating cities and urban sustainability. The focus of the project is negotiated around your interests and aims to increase research skills and knowledge of the field and has the potential to be the basis for further research. It will be guided and supervised by an academic staff member and may result in a co-authored academic paper. It is often best if this research forms the basis of post-graduate thesis. Working towards academic publishing is strongly encouraged. This takes a much longer period and will extend beyond the period of the internship.

The internship may also include a range of administrative and communication activities to develop your project management skills and understanding of the requirements of administering and building an international programme. In some cases this may be the principle focus depending on professional interest.

You are required to apply in writing, expressing why you are interested in undertaking the internship, your career aspirations, research interests etc and provide a CV. You will receive a follow up email and if shortlisted, undertake an interview. Please feel to forward an email expressing your interest to elizabethryan@citiesprogramme.org. Interns are usually selected based on the match between their skill set and interest and the projects and opportunities on offer at the time of enquiry.
City of Darebin

Location: Melbourne

Field: Urban Design, Urban Planning, Policy

Info: Requests can only be considered if work placement is a requirement of the course.

If you are interested in applying for a work placement or work experience:

1. Complete the Application for an Employment Program Form (Downloadable on the website)
2. Post the form to us by mail.
3. Once your application has been received it will be forwarded to the relevant Department for consideration and, if the Department is able to accommodate your placement request, you will be contacted to make further arrangements.

Note: Only successful applicants will be contacted further.

Postal Address:
People & Development
Darebin City Council
PO BOX 91
PRESTON VIC 3072

Brookfield Multiplex
http://www.brookfieldmultiplex.com/ausgrads/home

Location: Melbourne
Field: Construction, Building, Engineering, Architecture

Info: Brookfield Multiplex offer graduate and cadet programs. The cadetship takes place whilst at university where you continue to work throughout the year whilst at university, not just over the summer break. Working on a variety of iconic and industry leading construction projects, you will develop both technical and behavioural skills while rotating through various disciplines such as Safety, Environmental, Quality Assurance, Document Control, Site Management, Design, Services and Contracts Administration. The program is competency based and therefore the time it takes to complete it will depend on you, your existing skills, the effort you put in and the way you like to learn. Applications Open January 2015.

Requirements: Australian and New Zealand citizens or Permanent Visa Holders

4. DIRECT CONTACT

There are many jobs and vacancies that never get listed. Some organisations may rely solely on speculative enquiries to meet their employment needs. As such, it may be worthwhile to contact organisations directly via their website contact details. The list below details a number of organisations which operate in the field of environments, architecture, planning, building and design:
